# WASHINGTON CITY:

MONDAY ..... NOVEMBER 20, 1865. BY READING MATTER ON EVERY PAGE BRE OUTSIDE FOR INTERESTING TELE-GRAPHIC AND OTHER MATTER

NEW PAPER.-We have received the first number of The Georgetown Courier, a new weekly paper published in Georgetown, D. C., by McGill & Co. The Courier presents a neat typographical appearance, and is filled with interesting matter.

PERSONAL -W. W. Corcoran, Esq., has returned to this city from Europe, looking in fine health. .... Lord Palmerston's death was the result of his driving out without his great coal—so say his physicians. Never ride out without your great coat. ... The N. Y. Tribune thinks it will soon be difficult to determine whether war or locomotives have been the more effective in reducing the population of civilized countries. ... Dr. Livingston, the African explorer, is in Bombay. The Doctor is about to engage in another exploring expedition into the interior of Airica, and has gone to Bombay for the purpose of making some preliminary preparations. ... Gen. McClelian has concluded to spend the winter in Dresden. ... It turns out that many of the "15,000 ladica" of Baltimore who signed the Jeff Davis petition were school girls seven or eight years of age. ... Some new pictures by Meyer, of Dresden, attract attention at Markriter's, 7th street. ... The Annapolis Republican tells a story of an old Dutchman down there who sunk a well one hundred and fifty feet without striking water, and refused to bore further, saying, "me a rikes fire before me strikes water." result of his driving out without his great me wrikes fire before me strikes water.

#### The Late Collector King.

BODY FOUND-EXAGGERATED RUMORS. A FODY FOUND—EXAGGERATED RUMORS. There were many rumors this morning in regard to the remains of Preston King, which it was said had been found in the Hudson River. The report at the Merchani's News Room, taken there by a person who resided on the New Jersey shore, and whofwas known at the room, was that the body had been recognized by him, and that it had fastcued to the teet the bag of shot Mr. King is supposed to have purchased. This testimony was positive, and was quickly circulated in various forms.

There were other signilar accounts. A per-

quickly circulated in various forms.

There were other similar accounts. A person at the Custom House declared he had seen the remains. Word had also been conveyed to the Astor House, directly it was understood from the persons who had secured the remains, and a detective who had seen Mr. King at the Astor House, at intervals, for many years, was sent to investigate the reports. He found on one of the docks at Hoboken the body of a drowned man, which was thought to be that of the late Collector. The detective examined it, and though it was a large body, he easily convinced himself it could not be Mr. King's. He made full inquiries, however, and reported before noon that the remains were those of a German. German.
The theory that this German was the person

The theory that this German was the person who jumped from the Hoboken ferry-boat has been suggested by a number of citizens; but the proofs conceraing the appearance of the man who bought the shot on the morning of Monday, and of the man who had made the fairly plunge, with other facts, are too strong to admit of any doubt in the matter.

The impression that the remains of the late collector may not be recovered gains ground. The weight of the shot would, it is thought, prevent the body from floating on shore, and keep it in deep water, while at the same time it would easily float with the tide.

Many boats of all kinds are employed to-day in dragging the bottom of the Hudson River, between this city and Hoboken. The number of row-boats alone thus engaged is fifty or sixty.—N. F. Part, 18th.

General Terry, commanding the Department of Virginia, has issued an order suspend-ing the issuance of Government rations to des-titute people in his department, this action being in conformity with a determination lately arrived at by the military authorities to thrust the burden of support of the indicent population of Virginia upon the poor fund that is collected under assessment in every county. There will consequently be a great saving in the subsistence department of the above State.

By General Canby has issued an order in New Orleans reminding army officers who have occupied as their quarters the abandoned houses of rebels, that they are responsible for the furniture and other property iound therein, and they are advised, therefore, to take proper receipts for the same before they pass into the hands of the persons to whom restoration may be made.

• The old American line of steamships be-tween New York and Havre, which was sus-pended during the war, owing to the liability of the vessels to capture by rebel pirates, has been re-established, and the Arago and Futton are again placed on the route. The first trip of the teneved service will be made by the Arago. the renewed service will be made by the Ar which will leave on Saturday next for Havre, touching at Falmouth on the way.

Boston and Portsmouth navy yards have received orders from the Secretary of the Navy to reduce the number of workmen in those establishments. It is also designed to discharge on the 1st of December about 2,500 of the workmen in the Brooklyn navy yard. There are nearly 5,600 employed there now.

At the tournament given in Fredericks-burg on Wednesday last, the Knights, after bor-rowing sashes, horses, and saddles of the United States officers stationed there, excluded them from the ball given at night.

C.pt. Waddell states that the first information he received of the close of the war was on the initieenth of August from the Eritish war yeare! Eurraconta, and that he immediately consigned her guns to the hold and steered for Liverpool.

The Daily News says the Americans may be inclined to say it was only fitting that her end should be as Brittish as her origin; but the News cannot help asking how the Shenandoah was enabled to pursue her course without the least interruption from the American navy. Can it be possible that the expectation of recovering compensation for losses resulting from her depredations from England that made the American Government less eagar for her capture. If the world should come to that conclusion, it would be one of the strongest practical arguments against the admission of such liabilities as Seward is now endeavoring to establish agrinst England. It is stated that Waddell sent a letter to Earl Russell. Contents unknown.

Seige of Matamoras Raised—Arrival of French Trausports—Prisoners in the Hands of the Liberals to be Shot.

French Trausports—Prisoners in the Hands of the Liberals to be Shot.

The Herald's City of Mexico correspondence stries that the Mexican Palacios, in readiation for the execution of Liberal generals by the French, has ordered all the French, Austrian, and Leigiau prisoners held by him to be shot. The same correspondent stetes that the defeats of Figueroa, by the Imperialists, are false. Negalde, who is also said to have been routed, had arrived at Muscatio with five hundred men, having made a raid through the whole of Messquitial. The Juarist forces are said to have increased to such an extent that Marshal Bazaine has been obliged to order Brincourt to abandon Chihuahna and fall back on Durango. The defert of Arienga in Mechoacan is said to be of no very great importance, as there are over four thousand well-armed and organized troops in the Saite, and commanded by several popular leaders.

The New Orleans Times Malamoras correspondent says the Liberals raised the siege of Metamoras on the night of the Sah inst. ni., and departed to naknown regions. It is generally thought that this is only a feint to san price and capture the city. No French though have yet arrived at Malamoras.

It also says that the principal force of the Liberals has gone in the direct on of Comarge, but dispersing it different bands. The imperial cavelry pursued them for five miles. Escablos' command took the river roots. The French squadron has arrived at the mouth of the Rio Grande.

Dispatch to the President. SLAVERY ABOLISHED AND THE REBEL DEBT REPUDIATED. Precident Johnson to-day received the foi-

lowing telegram : TALLAHASSER, FLORIDA, November 18, 1825. }

Ardrew Johnson, President United Elates:-

The Convention has annulled the ordinance of secersion, abolished slavery, and declared that all the inhabitants of the State, without distinction of color, are free, and that no person shall be incompetent to testify as a witness on account of color in any matter wherein a colored person is concerned. It has repudiated the State debt contracted in support of the rebellion, amended the constitution in other respects, and adjourned.

WILLIAM MARVIN, Provisional Governor of Florida.

THE REASON WHY. The London News (see foreign despatches) asks, apropos of the arrival of the pirate Shenandoch in the Mersey, "how the Shenandoah was enabled to pursue her course without the least interruption from the American Navy ?" For the simple reason that every British port

was a shelter for her and her fellow-pirates, and that the twenty-four hours start permitted her by "neutral" Britons enabled her, as it did the Alabama and the others, to slip away and escape successful pursuit. Should the "next war," or any other war, ever call into requisition American steamer privateers to the disadvantage of British commerce, we opine that Great Britain will have a livelier time, even, in overtaking them than we have had with the fast-spiling rebel pirates.

#### ORDERED TO TEXAS.

All of the regular cavalry regiments (except the 5th, detachments of which are on duty in Washington, Cumberland, Md., and Nashville, Tenn.,) have been ordered to report to Gen. Sheridan, and will be assigned to duty under Gen. Merritt, at San Antonia, Texas, The ordering of these troops to Texas has occusioned considerable speculation, and is looked upon by some as having an important bearing relative to affairs in Mexico. It is probable, however, that the cavalry are assigned to Texas merely because that arm of the service can be employed to better advantage there than infantry. The 2d and 3d regiments of regular cavalry are now in Maryland, the 4th in Tennessee, and the 1st and 6th in New Orleans.

GENERAL HOWARD.

Major General Howard, Superintendent of he Freedmen's Eureau, returned to Washington on Saturday, from his tour of inspection ton on Saturday, from his four of inspection through the Southern State, under instructions from the President, having visited all the States late in rebellion except Texas and Arkansas. He speaks encouragingly of efficies in the South, and his visit has been ofgreat value to both whites and blacks of the Southern Scatter, as well as to the legislative and excep-Stater, as well as to the legislative and execu-tive departments of the Government.

TO BE TRIED It is understood in well informed military circles, that the Secretary of War has ordered a military court to convene for the trial of Winders, Duncan, and Gee, now confined in the Old Capitol prison, upon the charge of cruel treatment towards Union prisoners at Anderson ville.

RELEASES ORDERED.

We hear that the Secretary of War has ordered Major Turner, Judge Advocate of the War Department, to direct the release from the Old Capitol prison certain prisoners committed there by order of General L. C. Baker, they having been confined a sufficient length of time without the charges being sustained.

FREEDMEN IN LOUISIANA. The medical department of the Freedmen's Bureau has received a report which shows

that there are only 368 freedmen under medical treatment in Louisiana, located in the hospitals at New Orleans, St. Charles, Shreveport, Thib-edeaux, and Baton Rouge. PATENT OFFICE. The business of the U.S. Patent Office is gradually increasing. During the month of

# LOCAL NEWS.

The Highway Robbery Charges.—Last night, Justices Handy and Thompson took up the case of the robbery of A. McDougel Meeks on Fridry night. The complainant was at Canterbury Hall, and having been drinking, called a bock to carry him to his boardingliouse. A boy named Jerry, who was employed at the Canterbury, was put in the hack with him. The hackman drove to a restaurant, and a glass of liquor, which the complainant believes was drugged, was brought to him. He drack it, but it had no stupefying effect. Three men then got into the hack, which was driven past his boarding-house, and down 15th street to Murder Bay, where he was robbed by the driver and his fellow-passengers. Lambert tried to get a watch from complainant, but he clung to it, and said it was his daughter's, and he would only part with it with his life. Lambert drew a knife and threatened to cut Meeks' arm off if he did not give up the watch, but the complainant held it. Complainant was not drunk, and marked down the number of the hack, 222. He then gave the number to Sergeant Skippon, who arrested Lambert Saturday, and Justice Thompson sent him to jail for court. Saturday, Officer Weeden arrested Wm. H. Martin at the corner of 4½ and O streets south, and Sergeant Skippon and Roundsman Johnson, of the Third Ward, arrested A. Lafontaire, Joseph McLaughlin and John Adams on suspicion. Yesterday, after a hard chase, Officer Frazier arrested James King, secreted in a lumber yard between 12th and 13th streets, in Murder Bay. King admitted he was one of the party, and received \$7 from a driver, which was recovered by Sergeant Skippon. Martin also comfessed his connection with the affair. The three were sent to jail for court. There was no evidence to implicate Lafontaine, Adams or McLaughlin, and they were acquitted.

Military Disturbance.—Last Saturday night, Erevet Major Muhlenberg, commanding the two companies of 4th U. S. artillery, quartered in the War Department Barracks, ordered Brevet Major Reilly, of the same command, under arrest. The latter refusing to obey the order, Major Muhlenburg directed a squadron of men to enforce it, but they belonging to Major Reilly's Company, refused. Subsequently Major Muhlenberg attempted to confine Major Reilly in his quarters by physical force, which the latter resisted, resulting in a fight between the two officers, in which reveral men of the command participated. Col. Callis, of the 7th Veteran Reserves, hearing of the disturbance, went down ceveral men of the command participated. Col. Callis, of the 7th Veteran Reserves, hearing of the disturbance, went down the Earracks and reported the facts to Geometric commanding the garrison of Washington who immeditely placed the Colonel in command at the barracks and ordered a portion of the 5th regiment of Hancock's corps from Capitol Hill to report to the Colonel. Upon the arrival of the troops guards were stationed around the barracks and quiet was soon restored. Yesterday, upon the representation of the facts at headquarters, Majors Muhleuburg and Reilly and a number of men were arrested and are held to await an investigation of the affair. The outbreak gave rise at the time to a report that a riot was going on between the negrees of the city and the soldiers, and caused considerable excitement.

Secretary.

Mr. Stake moved to refer the report to a joint special committe of both branches.

Mr. Mitchell thought it would not be conrected to the Guardians of the Public Schools, who devote the chief portion of their time in advancing the interests of education, thus to refer the report, and he should therefore vote against the motion.

Mr. Hyde, as a member of both bodies, was perfectly willing the reference should be made; but he agreed with the gentleman that preceded him, that those alluded to by Mr. Stake as complaining of the conduct of the nchools should appear before the guardians, and state to them their grievances. He invited the members to attend the quarterly distribution of premiums at the Montgomery street school on Friday evening next.

Mr. Craig, as a teacher of considerable experience, referred to the general ability and attendance to their duties of the School Grancians; and he was of the opinion, inasmuch as the report contains only inch, it should be received.
